## ABOUT US

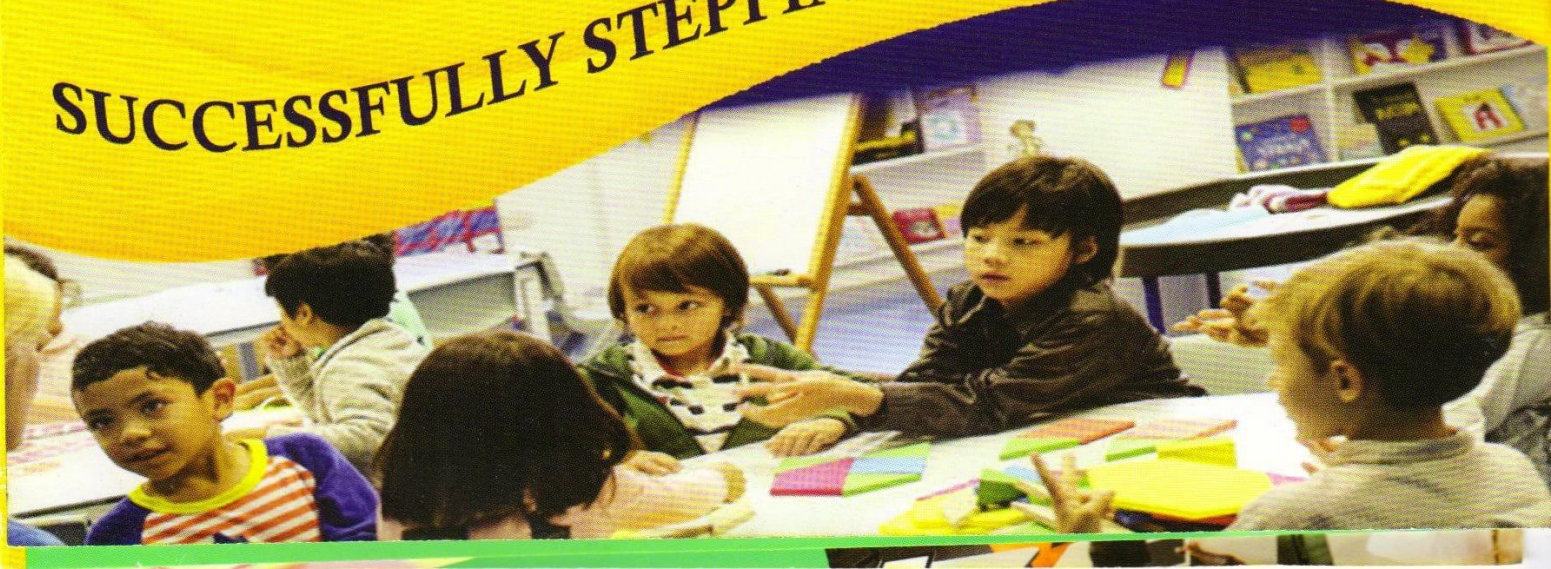

An innate thirst to serve the society in a fitting manner drove us to embark on a journey to provide a better platform for the learning populace, in and around Palani. After much thought, we came out with an educational edifice with a sincere aim to give the best possible education. This brought into existence our Brilliant Kids Montessori School, Palani. It was founded in 2011 and is a Co-educational English Medium School . It started out as a play school with humble beginnings and year by year we have developed into a full-fledged primary school, imparting knowledge and equipping students with life skills. It stands unique in equipping students with scholastic as well as life-oriented skills.

The growth of the institution to the present stature is solely because of the staunch faith and trust of the parents reposed on us. We take care in maintaining the same with no compromise on our high standards set hence forth.

Using the **Montessori Method** we help to shape the characters of our students and enhance their critical and analytical thinking. We teach them the morals of life along with the regular curriculum. **Phonetics** keeps the students engaged in learning and has been a driving force for our continued success. With a **student-teacher ratio of 20:1**, we are able to give each child the needed attention and help build their confidence. Students from anywhere can take admission in our school as Hindi and Social Value is part of the compulsory curriculum.

With all-round development of the child, being the foremost challenge, we strive to provide our students with physical fitness, a friendly environment and the latest in technology.
